

EXPOUNDS IDEAS ON THE MONETARY SYSTEM

Aldrich Makes Address on the Subject of Currency Reform--Declares that no Definite Plan Has Been Adopted and that a Thorough Study will be Made.

Must Consider the Wants of Ninety Million People and Requirements of Twenty-Five Thousand Banks.

(By Associated Press.)
CHICAGO, Nov. 6.—Senator Nelson Aldrich of Rhode Island tonight in an address before the Chicago Commercial club, delivered the first of a series of speeches which he is to make through the middle west on the subject of currency reform. Aldrich is chairman of the commission appointed by congress to study a monetary system for the United States. He declared at the outset of his speech that "the question of formulating a definite plan for reforming existing conditions has not yet been taken up by the commission." He added that "no plan will be adopted until after opportunity is afforded for a most careful and exhaustive study of all the conditions that surround the problem."

"It is my purpose tonight," said Senator Aldrich, "to call the attention of the bankers and business men of Chicago to the more salient features of the work of the national monetary commission. We expect to be able to give the public within a short time the fullest information with reference to the experience and

practical methods of other countries, and of our own.

"The task of the commission is not only important, but it is surrounded by many difficulties, having first to consider the wants of ninety millions of people, then the requirements of 25,000 banks, the big state and the other 7000 national, with differing interests, some with the right of issuing notes, all jealous of their own rights, all naturally conservative as to innovations, and all unwilling to accept any changes that are not plainly along the line of acknowledged improvement.

"To secure satisfactory results it is evident that we must all lay aside prejudices, our preconceived notions, and perhaps our predisposition to advocate certain methods, but with a fixed determination finally to agree upon some plan that will fairly represent the combined wisdom of all."

Aldrich said he regarded the efficient organization of the credit and banking system of the country as far more important than the question of a note issue.

FRIENDS BELIEVE BODY IS THAT OF A NEVADA MAN

(By Associated Press.)
LOS ANGELES, Nov. 6.—That the body recovered from the ocean off Long Beach a few days ago was that of Bernard Fuller, a local mining man, and that Fuller was murdered, is the belief expressed by friends who have seen the remains. Fuller had been missing since October 21. The body could not be identified absolutely, owing to its decomposed condition. Fuller came to this city recently from Bullfrog, Nevada.

A rope in which a bowline knot had been tied was found around the waist when the body was found, and from appearances the man had been murdered.

Don't forget the fraternal Brotherhood card party at Elks hall, Monday evening, Nov. 8.

NATIONAL CAMP HAS MORE ORE DISCOVERIES

Another important strike of ore in National is that made on what is known as the Fender claim, owned by J. L. Workman, the discoverer of the district. The Fender claim is located on Auto hill and in a tunnel that has penetrated a five-foot vein for 30 feet, ore is being taken out that assays \$41.40 to the ton in gold and silver. The ledge matter is very similar to that in the Bonanza property, and every indication points to the exposure of rich ore shoots, which are so characteristic of the Charleston Hill bonanza. A significant feature of the new strike is that the ore near the surface only assayed two or three dollars a ton. The importance of the find is the extensiveness of the mineral belt, as this property is at least three-quarters of a mile west of Charleston Hill.

FOOTBALL FANS TAKE THE PLACES OF BLEACHERITES

(By Associated Press.)
CAMBRIDGE, Nov. 6.—In the first game of football in 12 years between Harvard and Cornell, the former won today by 18 to 0. Harvard had a wonderful defense and scored its first touchdown after 18 minutes of play in the first half. Two more were added in the second half, with goals from all three.

Ann Arbor, Mich.—Outplayed in every department of the game, Michigan was defeated by Notre Dame this afternoon by 11 to 3.
Princeton—Princeton played a 6 to 6 tie with Dartmouth today.
Ames, Iowa—Ames 18, Cornell 6.
Annapolis—The Navy and Washington and Jefferson played each other to a scoreless standstill when after 50 minutes of actual play neither side could cross the other's goal line.

Los Angeles—The Occidental and University of Southern California played a tie game, 3 to 3, today. But for the failure of the University of Southern California players to hear the whistle of the referee after a touchdown, the score would have been 9 to 3 in their favor.
Washington—Carlisle today defeated George Washington University by 9 to 5.

BISHOP MUST BE STEPPING STONE TO PARADISE

EVERYBODY HAD READ "THREE WEEKS" AND KICKED AGAINST PLAY

Poor old Bishop has just thrown another spasm. Advice received here yesterday state that the Loraine Buchanan company had been booked for the California town and among the plays to be presented was "Three Weeks." The Bishop, it is said, was so angry at the prospect of some other play being substituted, which of course was done, as the manager of the company did not like to shock the fastidious residents of the Bishop creek country.

If "Three Weeks" could corrupt the morals of the Bishop people, we would like to know what would be the result if they witnessed "The Girl from Rector's." Hereafter shows going in that direction had better study up on "Ten Nights in a Barroom," or "Uncle Tom's Cabin."

\$100 ORE IN TUNNEL OF NEVADA NATIONAL

Superintendent Nels Paulsen of the Round Mountain Lehigh Mining company has returned from a stay of a week in the Millett district. He is jubilant at the outlook there and says there are a dozen or more prospects which are sure to make mines. At Paulsen canyon the Nevada National company, which is composed of practically the same stockholders as the Lehigh company, has a tunnel in 30 feet on a gold-bearing ledge of ore. The vein is over two feet in width and the whole body of ore pans better than \$50 values. There is an 8-inch stringer of high grade which gives a return of \$100 per ton. Specimen ore, with the free gold sticking out of it, has also been found there.

Mr. Paulsen will remain here until he can get a mill run on the ore from the Antelope lease. Then he will return to Paulsen canyon and superintend work on the Nevada National.—Round Mountain Nugget.

NEVADA LOSES FIRST GAME THIS SEASON

TREASURER OF BIG 4 RAILROAD AN EMBEZZLER

(By Associated Press.)
CINCINNATI, Nov. 6.—Charles Warriner, the deposed local treasurer of the Big Four railroad, who is charged with misappropriating \$54,000, was released tonight on a bond of \$20,000. During the day Warriner made a remarkable change of front. In the afternoon he gave out a statement admitting that he was responsible for the shortage, and declaring there were others implicated. Later he changed his tactics and declared that he admitted nothing. The latter declaration is taken to mean that he intends to force his alleged partners in guilt into the open. The \$54,000 named in the warrant for his arrest represents the amount obtained from the railroad, but not the entire amount of his shortage, which is stated to be about \$100,000. The balance, according to a statement from the general counsel, has been covered by property that Warriner turned over to the company.

NICE SUM SUBSCRIBED FOR FATHER MEEHAN

Yesterday a subscription was started in Winnemucca for the benefit of Father Meehan, the popular Catholic priest who met with the unfortunate accident last Monday by which he lost his right leg. The list was circulated by E. R. Harroun of the Silver State and the business men and citizens generally responded most liberally with their subscriptions to the worthy cause. Up to noon today a total of \$325 had been subscribed, a sum which bespeaks the liberality of Winnemucca's people.

The streets without permission from the authorities, got thirty days in jail each, will continue the fight in their resolve to not touch hot food in return for working upon the rock pile at the institution. All were offered a hot breakfast this morning, but with one exception did not weaken. One half-starved fellow, who had received nothing but bread and water for days, said: "Give me a pick and let me go to work; I did not come here to be starved." All the others are subsisting on bread and water.
